Refrigeration Ball Valves

Innovative Refrigeration Products with High-Quality Performance

- Heavy-duty, full-port, bi-directional ball valves built to last with 900 PSIG maximum working pressure on sizes up to 7/8".
- Reduce service calls, refrigerant loss, and contamination with our cone-shaped 100% virgin Teflon seals and seats.
- Testing with 95% nitrogen and 5% hydrogen solution at 450 PSIG to detect and correct any leaks before the factory.
- No need to remove the cap during installation or service. Loosen the nut, turn 1/4 of the stem cap, and open the valve fully; close by turning 1/4 again. Tighten the nut and the job is complete.
- Joined together with a smooth and equal brazing process to prevent pinhole leaks.
- Internally equalized ball design.
- Compatible with CFC, HCFC, HFC, and HFO refrigerants and oils.
- Schrader valve inserted into ball valve body for durability.
- Rupture-proof encapsulated stem that is engineered from the bottom up.
- Our 2-year warranty proves confidence, along with every valve being proudly stamped with a serial number and cleanly packaged in a poly-bag to prevent contamination and malfunctions.

QUALITY STAMP

Only after our products pass strict and rigorous quality tests will the NDL name be stamped on them. The NDL Quality Stamp is our seal of approval that our products can be trusted in the field.

We Focus on Quality and Service So You Can Install with Confidence.

Since 1998, our mission has been to stay ahead of the curve as an industry leader in the HVAC, Refrigeration, and Hydronic markets. We have achieved this over the years by heavily emphasizing quality, innovation, and maintaining a global team of experienced professionals to deliver top-notch service. We continue to hold ourselves to the highest standards, never sacrificing the quality of our products or the commitment to our customers that has made us the company we are today.

What you can expect from us:

- Fast order turnaround
- Real-time order communications
- Field-experienced sales and technical support
- Parts packaged in contractor-friendly sized bags
- High-quality control standards for superior fit and finish

Global Team with Fast Order Turnaround

With distribution centers strategically located worldwide, we ensure fast order fulfillment while maintaining the exceptional customer service that has earned us our trusted reputation.

Locations:

- Southaven, Mississippi (United States)
- Vancouver, British Columbia (Canada)
